

KENSINGTON®

Orbit® Trackballs

For PCs
and Macs

The trackball for today *and* tomorrow is yours with Orbit®. Plug it into your PC PS/2 port and you've got Orbit control and comfort for today's computers. Plug it into the USB port on your PC or Macintosh, and you've got Orbit control and comfort for computers using the technology of the future. Get the comfort of a mouse and the benefits of a trackball in one award-winning package from Kensington.

Orbit® USB/PS2 Trackball

Orbit looks and feels like a mouse and is as easy to use as one. But it's a trackball, so you have less hand and arm movement; more comfort and control.

- Works with a USB port, the technology of the future, as well as a current PS/2 port
- Easy fingertip control offers natural, precise movement and orientation
- Symmetrical shape works for left- and right-handed users
- Hand-hugging design is comfortable for all hand sizes
- Natural wrist support helps reduce fatigue from extended trackball use
- Stays in one place so you save desk space
- Customizable buttons and downloadable software give single-click solutions to repetitive tasks

64226 Orbit USB/PS2 Trackball for PCs and USB Macs

*Everything you want
in a mouse...plus the benefits
of a trackball.*

Orbit® USB Trackball for Mac®

Redesigned for iMac™ and G3 users, the top-selling trackball for Mac is as easy to use as a mouse and provides more comfort and control.

- Plug-and-play ease of USB technology
- Translucent cover, blue buttons and trackball match the iMac appearance
- Stays in one place, saving desk space
- Fingertip control and symmetrical design for all hand sizes and left- or right-handed users
- Supports the natural angle of your hand to help reduce fatigue from extended trackball use
- Customizable buttons and downloadable software provide timesaving shortcuts
